ESG - Your questions answered

WHAT IS DE VERE'S COMMITMENT TO SUSTAINABILITY?

We are dedicated to achieving Net Zero emissions by 2050, aligning with the Paris Agreement. We have set ambitious Science-Based Targets, aiming for a 67% reduction in scope 1 emissions and an 87% reduction in scope 2 emissions by 2035. We've also implemented various resource-saving initiatives, including water conservation, waste reduction, and energy management.

WHAT ARE SOME KEY HIGHLIGHTS OF DE VERE'S SUSTAINABILITY EFFORTS?

We have achieved zero waste to landfill status, we use 100% renewable electricity across all locations, and have significantly reduced our carbon emissions since 2019. We have also implemented sustainable technology practices, such as repurposing IT equipment and using efficient printing solutions. We also actively support electric vehicle use by providing

charging points across all properties (excluding De Vere Grand Connaught Rooms)

HOW DOES DE VERE ENGAGE ITS EMPLOYEES IN SUSTAINABILITY?

We have appointed a dedicated Group ESG Ambassador, and have Green Teams at each property to drive sustainability initiatives. We provide comprehensive sustainability training to colleagues and encourage participation in local outreach projects.

HOW DOES DE VERE WORK WITH ITS SUPPLY CHAIN TO PROMOTE SUSTAINABILITY?

We audit supplier sustainability policies and accreditations to ensure alignment with our goals. We prioritise working with suppliers who have strong ESG credentials and adhere to our Supplier Code of Conduct. We've also consolidated our supply chain, reducing delivery miles and CO2 emissions.

WHAT ARE DE VERE'S INITIATIVES TO REDUCE FOOD WASTE?

We encourage guests to take only what they will eat at buffet-style meals and provide clear signage about the environmental impact of food waste. We also implement a 'just in time' ordering process and work with suppliers to reduce unnecessary packaging. Unavoidable food waste is collected and taken to anaerobic digesters for biogas and compost production.

WHAT ARE DE VERE'S FUTURE SUSTAINABILITY GOALS?

We aim to empower all colleagues to make environmentally responsible decisions, develop tailored renewable energy strategies for each location, and work to further reduce our food waste. We will also be dynamically updating our ESG targets and exploring new initiatives such as achieving Green Meetings accreditation and considering B-Corp certification.

HOW DOES DE VERE PROMOTE BIODIVERSITY AND CONSERVATION?

We're proud to prioritise conservation efforts across our 800 acres of outdoor spaces. Our dedicated Estate Management teams implement initiatives like tree and invasive species management and carbon offsetting tree planting schemes. We also protect natural habitats, such as ponds for Great Crested Newts, and seek to raise biodiversity awareness among guests and our local communities.

HOW DOES DE VERE SUPPORT LOCAL COMMUNITIES?

We have committed to donate 2,000 hours of colleague volunteering time in 2024 to local charities and community projects. We partner with organisations such as the Willow Foundation, Room to Reward, and Hospitality Action to provide support and resources to those in need.
